

# ***SUMMER CAMP***

## **Medical Care**

The health and safety of our campers is our top priority. To ensure that the camp's doctors will have all the necessary information they need for each child, we ask that your child be examined by their pediatrician before the start of camp and the completion of the relevant which must be submitted to the office camp office one month before the start of the camping season. During the camping period, the camping site is fully operational

a fully equipped medical clinic, staffed by medical and nursing personnel to provide first aid. If you have a particular medication you are taking, it would be important to have the essentials with you. In addition, the camp also has a psychologist for anyone who needs help. Campers in need.
